Subject Index

CLINICAL PROCEDURES
Chemotherapeutic agents
Soft tissue curettage: Literature review. Forgas L, 402.
Antimicrobials
A critical look at recent dentifrice claims. Sherrill CA et al., 410.
Gingival curettage: Is it a viable therapy alternative? Buethe CG et al., 24.
Curettage
Gingival curettage: Is it a viable therapy alternative? Buethe CG et al., 24.
Soft tissue curettage: Literature review. Forgas L, 402.
Data collection/patient assessment
Anorexia nervosa and bulimia: A review for the dental hygienist. Altshuler BD, 466.
The cardiac patient: Chemoprophylaxis considerations. Sullivan BV et al., 462.
The dental hygienist's role in alleviating dental fear and anxiety. Fong C, 66.
Drug abuse: What dental professionals should know. Young BF, 546.
A method for describing soft tissue lesions of the oral cavity. McCann AL et al., 304.
The patient with renal disease: Some implications for dental hygiene practice. McCormack KR et al., 406.
The transmission and manifestations of acquired immunodeficiency syndrome (AIDS). Brown BS, 10.
The use of the Schirmer tear test in evaluating mouth dryness. Davis CC et al., 116.
Dental hygiene treatment planning
Anorexia nervosa and bulimia: A review for the dental hygienist. Altshuler BD, 466.
Drug abuse: What dental professionals should know. Young BF, 546.
Improved communication through computer technology. Forrest JL et al., 558.
A method for describing soft tissue lesions of the oral cavity. McCann AL et al., 304.
Oral care for the radiotherapy-treated head and neck cancer patient. Sullivan MD et al., 112.
Planning treatment and sequence
The cardiac patient: Chemoprophylaxis considerations. Sullivan BV et al., 462.
The patient with renal disease: Some implications for dental hygiene practice. McCormack KR et al., 406.
The use of the Schirmer tear test in evaluating mouth dryness. Davis CC et al., 116.
Nutritional counseling
Anorexia nervosa and bulimia: A review for the dental hygienist. Altshuler BD, 466.
Children's dental diet: The short-term effects of a behavior modification program. Pal K, 56.
Pain control
Analgesia
Nitrous oxide: An occupational hazard for dental professionals. Rogo EJ et al., 508.
Local anesthesia
The administration of local anesthesia by dental hygiene students. Sisty-LePeau N et al., 28.
Patient education
Treating adult patients as partners in dental health education. Petersen M, 346.
Prevention of disease transmission
Gloved versus ungloved dental hygiene clinicians: A comparison of tactile discrimination. Wilson MP et al., 310.
Oral herpes and Hepatitis B: The dental hygienist's role in the prevention of disease transmission. Rubinstein L et al., 500.
The patient with renal disease: Some implications for dental hygiene practice. McCormack KR, 406.
Precautionary procedures: Use in dental hygiene practice. Boyer EM et al., 516.
The transmission and manifestations of acquired immunodeficiency syndrome (AIDS). Brown BS, 10.
Preventive agents
Clinical effectiveness of hydrogen peroxide-sodium bicarbonate paste on periodontitis treated with and without scaling and root planing. Lyne SM et al., 450.
An investigation of wax residue on tooth surfaces after the use of waxed dental floss. Perry DA et al., 16.

CLINICAL PROCEDURES (cont.)
Dentifrices
A critical look at recent dentifrice claims. Sherrill CA et al., 410.
The influence of dentifrice detergents on oral epithelial slough. Searls JC et al., 20.
Sealants
Application of pit and fissure sealants: Long-term effects of a one-day continuing education course. Tilliss TSI, 300.
Sealant retention rates in a community children's dental clinic. Little NJ, 62.
Radiology
The dental hygienist: Radiology and the boards. Jones GA, 218.
Root planing
Clinical effectiveness of hydrogen peroxide-sodium bicarbonate paste on periodontitis treated with and without scaling and root planing. Lyne SM et al., 450.
Scaling
Clinical effectiveness of hydrogen peroxide-sodium bicarbonate paste on periodontitis treated with and without scaling and root planing. Lyne SM et al., 450.
Tooth
Restoration polishing
A clinical comparison of amalgam polishing agents. Paarmann CS et al., 316.

COMMUNITY DENTAL HEALTH
Public health programs
Sealant retention rates in a community children's dental clinic. Little NJ, 62.

COMPETENCE/QUALITY ASSURANCE
The administration of local anesthesia by dental hygiene students. Sisty-LePeau N et al., 28.

CONTINUING EDUCATION
Evaluation of a Chinese-American exchange program for dental professionals. Gairola G et al., 154.
Need
Application of pit and fissure sealants: Long-term effects of one-day continuing education course. Tilliss TSI, 300.
The preventive behavior of dental hygienists. Gilpin JL, 552.

DELIVERY
Foreign countries
Evaluation of a Chinese-American exchange program for dental professionals. Gairola G et al., 154.
General population
Children
Children's dental diet: The short-term effects of a behavior modification program. Pal K, 56.
Geriatric
The use of the Schirmer tear test in evaluating mouth dryness. Davis CC et al., 116.
Special population groups
Medically compromised
The cardiac patient: Chemoprophylaxis considerations. Sullivan BV et al., 462.
The patient with renal disease: Some implications for dental hygiene practice. McCormack KR, et al., 406.
The transmission and manifestations of acquired immunodeficiency syndrome (AIDS). Brown BS, 10.
The use of the Schirmer tear test in evaluating mouth dryness. Davis CC et al., 116.
Oncology (cancer)
Oral care for the radiotherapy-treated head and neck cancer patient. Sullivan MD et al., 112.
Other
Anorexia nervosa and bulimia: A review for the dental hygienist. Altshuler BD, 466.
Drug abuse: What dental professionals should know. Young BF, 546.
Permanent tooth eruption in Hasidic children. Barnett V, 70.

DEMOGRAPHIC CHARACTERISTICS
Dental hygienists
Dental hygiene practice in Tennessee: Result of a manpower study. Williams NJ et al., 362.
New dental hygiene graduates: Demographic and employment profile. Boyer EM, 204.
Oral herpes and Hepatitis B: The dental hygienist's role in the prevention of disease transmission. Rubinstein L et al., 500.
The preventive behavior of dental hygienists. Gilpin JL, 552.

DENTAL HYGIENE BUSINESS
Insurance
Malpractice
A selected review of lawsuits brought against dentists: Their relevance to dental hygiene practice. Macdonald G, 358.
Recordkeeping
A method for describing soft tissue lesions of the oral cavity. McCann AL et al., 304.
The role of computerized microdiscs in dentistry. Wilson MP, 398.

DENTAL HYGIENE CAREERS
Computers
Improved communication through computer technology. Forrest JL et al., 558.
New dental hygiene graduates: Demographic and employment profile. Boyer EM, 204.
Employment rates
Dental hygiene practice in Tennessee: Result of a manpower study. Williams NJ et al., 362.
Expanded functions
The administration of local anesthesia by dental hygiene students. Sisty-LePeau N et al., 28.
Legality and dental hygienists' performance of expanded functions. Boyer EM et al., 104.
Job satisfaction
Dental hygiene practice in Tennessee: Result of a manpower study. Williams NJ et al., 362.
Roles
Clinical role differentiation for dental hygienists. Gurenlian JR et al., 456.
The dental hygienist's role in alleviating dental fear and anxiety. Fong C, 66.
Health promotion/disease prevention: Registered dental hygienists' beliefs and practice behaviors. Holcomb JD et al., 158.
The preventive behavior of dental hygienists. Gilpin JL, 552.
Treating adult patients as partners in dental health education. Petersen M, 346.
Stress
Stress in the training and practice of dental hygiene: Understanding and coping. Rubenstein LK et al., 166.

DENTAL HYGIENE EDUCATION
Curriculum
Psychomotor skills
The administration of local anesthesia by dental hygiene students. Sisty-LePeau N et al., 28.
Philosophy and methodology
Clinical role differentiation for dental hygienists. Gurenlian JR et al., 456.
Students
Stress in the training and practice of dental hygiene: Understanding and coping. Rubenstein LK et al., 166.

ETIOLOGY ORAL DISEASES
Nutrition
Anorexia nervosa and bulimia: A review for the dental hygienist. Altshuler BD, 466.
Saliva
The use of the Schirmer tear test in evaluating mouth dryness. Davis CC et al., 116.

ETIOLOGY ORAL DISEASES (cont.)
Other
Drug abuse: What dental professionals should know. Young BF, 546.
The influence of dentifrice detergents on oral epithelial slough. Searls JC et al., 20.
Oral care for the radiotherapy-treated head and neck cancer patient. Sullivan MD et al., 112.

INSTRUMENTATION
Technique
Gingival curettage: Is it a viable therapy alternative? Buethe CG, et al., 24.
Gloved versus ungloved dental hygiene clinicians: A comparison of tactile discrimination. Wilson MP et al., 310.
Soft tissue curettage: Literature review. Forgas L, 402.

LEGISLATIVE/JURISPRUDENCE
Licensing
The dental hygienist: Radiology and the boards. Jones GA, 218.
Regulations
The dental hygienist: Radiology and the boards. Jones GA, 218.
Legality and dental hygienists' performance of expanded functions. Boyer EM et al., 104.
Supervision
Nitrous oxide: An occupational hazard for dental professionals. Rogo EJ et al., 508.

NUTRITION
Relationship to oral health
Children's dental diet: The short-term effects of a behavior modification program. Pal K, 56.
Consumer attitudes and behaviors related to foods and dental health: Implications for dental education. McNutt KW et al., 350.

OCCUPATIONAL HAZARDS
Precautionary procedures: Use in dental hygiene practice. Boyer EM et al., 516.
Communicable diseases
Assessment of immunologic status among dental hygiene students: Implications for practice. Parker ME et al., 210.
Oral herpes and Hepatitis B: The dental hygienist's role in the prevention of disease transmission. Rubinstein L et al., 500.
The transmission and manifestations of acquired immunodeficiency syndrome (AIDS). Brown BS, 10.
Environmental
Nitrous oxide: An occupational hazard for dental professionals. Rogo EJ et al., 508.
Other
The patient with renal disease: Some implications for dental hygiene practice. McCormack KR et al., 406.

ORAL HEALTH
Attitude toward
Consumer attitudes and behaviors related to foods and dental health: Implications for dental education. McNutt KW et al., 350.
Health promotion/disease prevention: Registered dental hygienists' beliefs and practice behaviors. Holcomb JD et al., 158.
The preventive behavior of dental hygienists. Gilpin JL. 552.
Education
Treating adult patients as partners in dental health education. Petersen M, 346.
School children
Children's dental diet: The short-term effects of a behavior modification program. Pal K, 56.
Special population group
Oral care for the radiotherapy-treated head and neck cancer patient. Sullivan MD et al., 112.

PATIENT
Attitude
Consumer attitudes and behaviors related to foods and dental health: Implications for dental education. McNutt KW et al., 350.
The dental hygienist's role in alleviating dental fear and anxiety. Fong C, 66.
Treating adult patients as partners in dental health education. Petersen M, 346.
Compliance
Children's dental diet: The short-term effects of a behavior modification program. Pal K, 56.
Consumer attitudes and behaviors related to foods and dental health: Implications for dental education. McNutt KW et al., 350.
Treating adult patients as partners in dental health education. Petersen M, 346.
Management
Anorexia nervosa and bulimia: A review for the dental hygienist. Altshuler BD, 466.
The cardiac patient: Chemoprophylaxis considerations. Sullivan BV, 462.
The dental hygienist's role in alleviating dental fear and anxiety. Fong C, 66.
Drug abuse: What dental professionals should know. Young BF, 546.
Oral care for the radiotherapy-treated head and neck cancer patient. Sullivan MD et al., 112.
The patient with renal disease: Some implications for dental hygiene practice. McCormack KR et al., 406.
The transmission and manifestations of acquired immunodeficiency syndrome (AIDS). Brown BS, 10.

PERIODONTAL DISEASE
Clinical effectiveness of hydrogen peroxide-sodium bicarbonate paste on periodontitis treated with and without scaling and root planing. Lyne SM et al., 450.
Prevention
Gingival curettage: Is it a viable therapy alternative? Buethe CG et al., 24.
Soft tissue curettage: Literature review. Forgas L, 402.

PLAQUE CONTROL
Approaches
A critical look at recent dentifrice claims. Sherrill CA et al., 410.
Devices
An investigation of wax residue on tooth surfaces after the use of waxed dental floss. Perry DA et al., 16.

PROFESSION
Association business
Editorial director's report. Huntley DE, 262.
Report of the acting editorial director, April 1986. Ibsen OAC, 266.
Report of the editor, *Educational Directions*. Ibsen OAC, 268.
Report of the executive director. Sunseri AJ, 258.
Report of the president. Ramsay PC, 250.
Attitudes
Stress in the training and practice of dental hygiene: Understanding and coping. Rubenstein LK et al., 166.
Health promotion/disease prevention: Registered dental hygienists' beliefs and practice behaviors. Holcomb JD et al., 158.
Foreign countries
Evaluation of a Chinese-American exchange program for dental professionals. Gairola G et al., 154.

PUBLIC SERVICE
Forensics/victim identification
The role of computerized microdiscs in dentistry. Wilson MP, 398.
Screening
Oral cancer
A method for describing soft tissue lesions of the oral cavity. McCann AL et al., 304.
